Excellence in Service, Support and Training

Dimeco Coil Technologies, Inc.

Family-owned business since 1957, Dimeco is one of the world leaders of coil fed production systems.

But, no need to invest in a productive machinery and optimized changeover if down because of lack of support.

Our worldwide presence can't exist without local service: that's why we have built a partnership with service specialists.

Pro Services, Inc.

Since 1987, Pro Services has provided customer solutions with world-class skilled trades and production-maintenance services. We are a learning organization focused on continuous improvement

based on advancing industry technology. We allow our customers to focus on their core competencies while they leave their maintenance details to the pros. We work for you—harder and smarter.

Dimeco customer service has always been our major concern, whatever the location of our machinery. That's why we have been successful for more than 60 years.
